Re: Request to Intervene in All Proceedings on Docket # 2008-196-E,
The Combined Application of South Carolina Electric and Gas Company
for a Certificate of Environmental Compatibility and Public Convenience and
Necessity for a Base Load Review Order for the Construction and Operation of
a Nuclear Facility in Jenkinsville, South Carolina

Dear Mr. Terreni,

As a customer of SCE&G I petition the Public Service Commission to grant my request to be an intervenor for the above established Docket # 2008-196-E in any and all hearings and proceedings before the Public Service Commission. In particular I wish to be admitted or approved as an intervenor as immediately as possible so that I may participate in the upcoming hearing on September 10 about SCE&G's petition for the PSC to prematurely authorize land clearing far in advance of approval of actual construction. I wish also to participate as an intervenor in the hearing in October concerning SCE&G's proposed nuclear power facilities.

Please find enclosed three (3) additional letters with separate requests.

I am serving all other parties of record with a copy of this enclosed request, the additional letter, and a copy of the certificate of service.

Sincerely,

A handwritten signature in cursive script, appearing to read "Pamela Greenlaw".

Re: Request to Reduce Time for Responses of SCE&G to
Interrogatories or Requests for Discovery concerning Docket #
2008-196-E, The Combined Application of South Carolina Electric
and Gas Company for a Certificate of Environmental
Compatibility and Public Convenience and Necessity for a Base
Load Review Order for the Construction and Operation of a
Nuclear Facility in Jenkinsville, South Carolina

Dear Mr. Terreni,

Because the time for preparation for the hearing on actual site clearing has been very much shortened, I request that, on behalf of myself and other parties of record, that SCE&G be required by the PSC to respond to interrogatories and discovery requests about site clearing in six (6) days from the September 3 deadline rather than the regulatory 20 days. If SCE&G were to take the full twenty days to respond, the site clearing hearing on September 10 will have been concluded before the information is shared.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Greenlaw".

Re: Petition or Request for a Site Visit to All Areas scheduled for Rail Line and Road Installation As Well As All Areas Where the Actual Nuclear Power Plants and All Buildings of the Nuclear Facility Pertaining to Docket # 2008-196-E, The Combined Application of South Carolina Electric and Gas Company for a Certificate of Environmental Compatibility and Public Convenience and Necessity for a Base Load Review Order for the Construction and Operation of a Nuclear Facility in Jenkinsville, South Carolina

Dear Mr. Terreni,

As a customer of SCE&G I petition the Public Service Commission to grant my request to direct SCE&G to provide a site visit for all Intervenor, Protestants, Representatives, and Other Litigant and Parties established for Docket # 2008-196-E.

All the parties involved need an opportunity to understand the exact parameters as well as perimeters in question. Being knowledgeable about the site designation boundaries within which the Utility wishes permission to clear accomplish two things. First, the court time will be reduced, as all the parties will be on the same page as far as the defined geographical area intended by SCE&G's land clearing request is concerned. Second, the exact areas being known by all will ensure accountability on behalf of the Utility when actual clearing occurs.

I am serving all other parties of record with a copy of this enclosed request.

Sincerely,

Pamela Greenlaw
